

GAUTAM YADAV

Data Analyst | SQL | Python | Power BI | Excel

ydv565645@gmail.com | linkedin.com/in/gautam-yadav-6661a732a | github.com/gautam9034 | gautamyadav.me

PROFESSIONAL SUMMARY

Fresher Data Analyst with hands-on project experience in SQL, Python, Power BI, and Microsoft Excel. Skilled in writing SQL queries to extract and analyze data, performing data analysis and data cleaning using Python, and building interactive dashboards in Power BI to visualize insights. Eager to apply practical data analysis skills in a junior or intern role to help teams make better data-driven decisions.

TECHNICAL SKILLS

Languages: SQL, Python

Tools: Power BI, Microsoft Excel

PROJECTS

Supply Chain Analytics Dashboard *Power BI*

Built an interactive supply chain dashboard to track supplier performance, inventory, and shipments.

- Designed a multi-page Power BI dashboard to visualize supplier performance, inventory levels, shipment status, and customer data in one place.
- Created interactive charts and filters in Power BI so stakeholders could explore the data and spot trends without needing to run manual reports.
- Tracked key metrics such as total revenue, total profit, and order fulfillment to give a clear picture of overall supply chain health.
- Organized and cleaned the raw data before loading it into Power BI to ensure the dashboard displayed accurate and reliable information.

Sales Performance Tracker *Microsoft Excel*

Built a sales tracking and reporting tool in Excel to monitor monthly performance trends.

- Created an Excel dashboard using pivot tables and charts to summarize monthly sales performance across product categories.
- Used Excel formulas (SUM, AVERAGE, IF, VLOOKUP) to automate calculations and reduce manual data entry effort.
- Designed a clean visual layout so team members could quickly identify high-performing and underperforming products each month.

EDUCATION

Bachelor of Arts in Computer Applications (B.A. Computer Applications)

2026 – Present
